CyberBionic Systematics «**SQL# Essential**»

HTML Academy «**HTML & CSS**»

## EDUCATION

2010 NTUU "KPI"  
2015 Chemistry engineer

## MOTIVATION LETTER

*For me, testing and quality control is not something new, I carried out the input control of raw materials and quality control of finished products in the laboratory of paint and varnish materials according to technical regulations and DSTU, TU. In addition, I was able to significantly optimize and accelerate the process of control and processing of results through the introduction of computer technology and establishing communication in intersectoral production departments, which essential increased productivity.*

*I'm hope my skills will find application in your development.*

*Thank you for your attention.*
